FRENCHMAN FLIES OVER BERLIN AND LANDS IN POLAND

Travels More Than 800 Miles
Before He Descends and
Is Made Prisoner.

RUSSIA HIS OBJECTIVE

Dropped Proclamations in Ger-
man Capital Before Contin-
uing Trip.

PARIS, July 24.—Lieut. Marchal, of the French aviation corps, last month left French soil and flew over the German capital, upon which he dropped proclamations, and then continued his flight, intending to land within the Russian lines. He was forced to descend, however, in Poland and was taken prisoner by the Germans.

The proclamations dropped by Lieut. Marchal on Berlin stated that though it was possible the aviator refrained from bombarding the open town and "thus kill the women and innocent children."

Lieut. Marchal made a continuous flight of about 807 miles, most of which he traveled in darkness.

Official Report of Flight.
The official communication given out today telling of Aviator Marchal's achievement, said:

"On June 20, at 9:30 o'clock in the evening, Sub-Lieut. Marchal ascended at Nancy on board a Nieuport monoplane of a special type, taking with him a supply of fuel sufficient to last 11 hours. His mission was to cross Germany at a low altitude in order to drop proclamations on the capital, Berlin, and then to descend in Russia."

"This audacious flight was accomplished point by point and after flying all night Lieut. Marchal was compelled to descend at 8:30 o'clock in the morning of June 21, near Chelm, Russian Poland, at least 100 kilometers (62 miles) from the Russian lines. He was made prisoner."

"The proclamation which Lieut. Marchal dropped on Berlin began with the words:

"We could bombard the open town of Berlin and thus kill the women and innocent children, but we are content to throw only the following proclamation, etc."

Austrians Did Not Believe Him.
Lieut. Marchal was interned at Salzburg, whence he forwarded to France a postal card giving these details:

"I was made prisoner at 8 o'clock on the morning of the 21st at Chelm. The Austrian officers did not believe that I had accomplished my task, but the proof later arrived, and they were obliged to bow to the reality."

"It was the failure of the spark plugs which stopped me and I decided to change two of the plugs and to start the motor again. Unfortunately, it would have been necessary to change two more plugs, and at this moment I was taken prisoner. You may judge my chagrin."

"Aviator Marchal, in the course of his journey, covered in continuous flight a distance of about 1000 kilometers (620 miles), most of which he traveled during the night."

\$688 RAISED BY BALL 24 YEARS AGO WILL GO FOR IRISH RELIEF

Fannie Parnell Society Had Held No Meeting Since Affair at Ubrigg's Cave in 1892.

The Ladies' Land League yesterday voted to give \$688, raised at a ball held in Ubrigg's Cave on St. Patrick's night 24 years ago, to the Irish Relief Fund Association to alleviate suffering in Ireland. This was the first meeting of the league held since the ball. Only 10 of the original 50 were present.

The money was held without power of investment by Mrs. E. D. Ryan, the treasurer. Upon her death recently Frank X. Ryan, her son, trustee of the St. Louis Union Trust Co., notified Miss Alice Gallagher of 444 De Buiviere avenue, the league's president, that the money had to be disposed of.

Sadie Fishel, 4 years old, of 208 North Fifteenth street, was scalded with hot tea last night and is in a serious condition at the city hospital.

The child's parents are out of town and she was living with friends of the family at 1811 Carr street. John Marshall, a boarder, was carrying a cup of hot tea to the table, when the child ran against him, causing the tea to be thrown over her body.

WIRELESS ACTION POINTS TO COMING OF THUNDERSTORM

Interference, Said to Be Caused
by Sun Spots, Renders Mes-
sages Unreadable.

BIG SPOT BREAKING UP

Negative Elektrons From Luminary in Contact Soon With Earth's Positive Ones.

Brother Hubert, astronomy professor at Christian Brothers College, predicts that electrical disturbances, caused by sun spots, will break the St. Louis hot wave tonight or tomorrow, when the first of a series of thunderstorms, accompanied by rain, will occur.

For more than a week Brother Hubert has been making special observations of a large group of spots on the sun's surface. Ten days ago there was only one spot. By a series of scientific calculations the astronomer found that this spot had a diameter of 10,000 miles. Then it began to break up into smaller spots. Yesterday Brother Hubert counted 207 spots. This morning there were only 84. Brother Hubert today told a Post-Dispatch reporter that the wireless apparatus at Christian Brothers College revealed the presence of the large sun spot before it became visible through the telescope.

Crackling in Instruments.
"Disturbances on the sun's surface always cause interference with wireless transmission," he said. "There is an almost constant crackling in the receiving and transmitting instruments. This sound becomes confused with the messages which are being sent or received and makes it impossible to understand them. This condition is worst when spots are forming on the sun. Wireless operators look for storms in these cases, but the storm conditions sometimes are slow in reaching a climax. It is impossible to define the zones affected by the sun spots, but the crackling of the wireless apparatus here is accepted as an indication that St. Louis is within the storm area."

So long as there is only one large spot on the sun, Brother Hubert says, there is no immediate prospect of a storm, but when the spot begins to break up electrical disturbances are sure to follow.

He explains this by saying that sun spots occur only when one or more large planets are so close to the sun that they attract the gaseous matter of which the sun's outer surface is composed.

Gases Drawn From Sun.
This causes a cyclonic condition on the sun at the point where the attraction is greatest. For a time the gases and vapors resist this force, but gradually they become rarefied and are drawn out into space beyond the power of the sun's gravity.

Among the component parts of the sun's outer surface are billions of electrons, or molecules, highly charged with negative electricity. When these enter the earth's atmosphere and come into contact with positive electrons there the time is ripe for electrical disturbances.

This condition is now forecast by the rapid disintegration of the sun spot, Brother Hubert says. He expects the period of electrical unrest to extend over about seven days.

GEN. BLISS FINDS LAREDO CAMP IN GOOD CONDITION

Less Than One Per Cent of Mis-
souri, New Hampshire and
Maine Troops in Hospital.

WASHINGTON, July 24.—Major-General Bliss advised the War Department today that he had completed inspections of the Missouri, New Hampshire and Maine Infantry camped at Laredo, Tex., and found health conditions excellent, less than 1 per cent of the companies being in the hospital and no serious cases reported.

The water supply, while abundant in all cases, Gen. Bliss said, had to be boiled for drinking purposes, but the Laredo authorities would take immediate steps to improve purification and make boiling unnecessary. The companies reported excellent shelter with the exception of two companies of the Fourth Missouri, for which new tents had been requisitioned.

Regarding the food supply, the General said all officers interviewed by him had stated it was abundant in quantity and of excellent quality. He added that a general spirit of contentment existed among the men.

The War Department has instructed army commanders on the border to submit weekly reports showing the actual physical condition of their commands, describing the treatment accorded the men, and detailing the duties they are performing.

The reports, it was announced today, will be published uncensored by the department, to meet criticisms alleging mistreatment and undue hardships suffered by militiamen.

Married Men Getting Out of Militia: Say They Must Pay Fare Home.

SHEBOYGAN, Wis., July 24.—Fifteen married men, members of C Company, Second Wisconsin Infantry, will return to Sheboygan from Fort Sam Houston, Tex., as soon as proper affidavits showing they have families dependent upon them, can be furnished from this city. Word to that effect was received here today by their wives.

The men assert they will be compelled to pay their own fare home. It is said 200 men will return as soon as the proper affidavits are received.

MAN WHO SAYS HE IS DURGIN IS HELD IN LOS ANGELES

Tells Police There He Killed
His Bride in Pontiac Hotel
Here.

Special to the Post-Dispatch.
LOS ANGELES, Cal., July 24.—A man who declared he was Charles H. Durgin, slayer of his wife, Bertha Elrod Durgin, in St. Louis, surrendered to the police here today. He said he was ready to return to St. Louis and take his punishment.

Durgin has been sought by the St. Louis police since July 7, when his bride of three weeks was found dead in a room at the Pontiac Hotel, Nineteenth and Market streets, with a bullet wound in her right temple. Both had been employed at the Glenwood Sanitarium at Glendale, St. Louis county.

After the death of Mrs. Durgin many circumstances pointed to Durgin as her slayer. He accompanied her to the hotel, but departed alone a few hours before her body was discovered.

Investigation disclosed that Durgin had been insane 19 years and at one time tried to kill his father and his two sisters. At various times he had been a patient at the city sanitarium (insane asylum). After being discharged as cured he was hired as a personal servant by Dr. H. S. Atkins, proprietor of the Glenwood Sanitarium.

For several days the identity of the woman killed was not known. She was identified by a sister, who also worked at the sanitarium, and later it was learned that she and Durgin had been married at Clayton after resigning their places at the sanitarium.

These figures bring the aggregate losses to date to 29,424, of which number 8907 have been killed or died, 15,455 wounded and 5171 missing.

Brigadier-General Kirk and Brigadier-General Mercer were killed and Gen. Williams was reported to be a prisoner. Three other Brigadier-Generals were wounded and nine Lieutenant-Colonels were killed.

ASQUITH ASKS FOR CREDIT VOTE OF \$2,250,000,000

Sum is Largest Yet Requested and
Would Bring England's Outlay
for War to \$1,416,000,000.

LONDON, July 24.—Premier Asquith today asked the House of Commons for a vote of credit for £250,000,000 (\$325,000,000).

This vote is the largest asked by the Government since the beginning of the war, and will bring the total vote this year to £1,650,000,000 and the total since the beginning of the war to £2,325,000,000 (approximately \$2,912,500,000).

In moving the vote of credit the Premier said the recent expenditure out of the vote of credit was approximately £5,000,000 daily. The £5,000,000 daily referred to by Reginald McKenna, the Chancellor of the Exchequer, represented all the outgoing, the Premier said. All the expenditures from April 1 to last Saturday was £58,000,000 (\$73,750,000).

Mr. Asquith said that the navy, army and munitions cost £279,000,000, the loans of Great Britain's allies £17,000,000 and food, supplies, railways, etc., £23,000,000. The average daily expenditures on the war, he said, was \$27,750,000.

The Premier said he hoped the expenditure for the army and navy would not exceed the present level in the near future. The munitions cost remained stationary at the highest level yet reached, he added, and might increase.

APPEAL TO HOUSE OF LORDS FOR CASEMENT IS UNLIKELY

Attorney-General Tells Counsel That
Permission Will Not
Be Granted.

LONDON, July 24.—Sir Frederick E. Smith, the Attorney-General, has intimated to Roger Casement's solicitors (that he is unwilling) that his application would enable Casement's appeal against the death sentence passed on him for high treason in connection with the Dublin rebellion to be carried to the House of Lords.

An official statement regarding the Casement appeal was issued this afternoon. It read:

"The Attorney-General has refused application for his certificate under the Criminal Appeal Act of 1907 authorizing a further appeal of this case to the House of Lords."

Indications That Clemency Will Be Shown Casement.
WASHINGTON, July 24.—Through official sources in Washington the British Government has been informed that much public opinion in America is adverse to the execution of Sir Roger Casement. There have been no formal requests from the United States Government for a pardon or commutation of sentence, for it is realized that any action would make it much more difficult for the British Government to accept suggestions which are coming to it informally from high official sources.

There are intimations, however, that conditions at present indicate that clemency will be shown.

LONDON, July 24.—The British troops have captured a large part of the village of Pozieres, which is on the road to Bapaume, says the official British statement issued this afternoon. They also gained some ground near Highwood in the direction of Guillemont. The night, the statement adds, was comparatively calm.

The British statement today follows: "Apart from continuous heavy shelling by both sides during the night comparative calm followed the severe fighting of yesterday."

"Yesterday between High Wood and Guillemont repeated counter attacks by the enemy gained for him no advantage, and very heavy casualties were inflicted by our artillery and machine-gun fire. We gained some ground near High Wood and in the direction of Guillemont. In the neighborhood of Pozieres we secured important advantages in spite of the stubborn defense of the enemy, and a large portion of the village is now in our hands. Here we have captured two guns and 60 more prisoners."

"The battle on the British front was resumed yesterday along the whole line from Pozieres to Guillemont, approximately five miles."

The British official statement issued yesterday afternoon, said: "The battle has been resumed today all along the German front from Pozieres to Guillemont and reached a stage of intense violence."

Australians in the Fight.
"In the neighborhood of Pozieres, territorial and Australian troops, attacking from the southwest and southeast respectively, carried the German outer works by assault shortly after midnight. Violent fighting now is taking place in the village, where the Germans are offering a desperate resistance with large numbers of machine guns."

"On other parts of the battle front the fighting is equally intense, and here no definite progress is yet reported. At one time this morning we had recaptured the whole of Longueval, but the enemy once more regained the northern end of the village. Similarly, the outskirts of Guillemont already have twice changed hands."

In a statement issued last night the War Office announced further progress of the British in the neighborhood of Pozieres with the capture of a number of prisoners. On the rest of the front from Pozieres to Guillemont, a continuance of the battle with fighting of intense violence was reported.

Bad weather prevails along the Somme front in Northern France and last night passed quietly with the French troops there, the French War Office announced today.

In a raid near Vailly, north of the Aisne, German trenches were penetrated and some prisoners taken.

On the Verdun front, east of the Meuse, there were small local engagements in the course of which the French took 30 prisoners, making the total taken prisoner during the last 10 days in this district 80.

Sub-Lieut. Chaput of the Aviation Corps brought down his eighth hostile aeroplane near Frennes in the Woivre region.

French Lines Held.
The new French line south of Soissons have held against a German counter attack, the French War Office announced yesterday.

The official statement from Berlin yesterday said the British attacks from Thiepval to Guillemont were futile, and that stubborn hand-to-hand fighting developed near Pozieres and Longueval. The Germans gained ground south of Dambloup, east of Verdun.

Berlin Admits Transfer of Troops From Verdun.
BERLIN, via London, July 24.—The only advantage gained by the British in the fighting on the Somme front Sunday, says the German official statement issued today, was the penetration of a few houses in the village of Pozieres for which they paid with heavy and sanguinary losses.

LIGHT BRITISH AND GERMAN WARSHIPS IN RUNNING FIGHT

Six of Kaiser's Destroyers Said
to Have Been Hit Repeatedly,
but Reached Belgian Coast.

LONDON, July 24.—Six German torpedo boat destroyers were engaged in a running fight by British light forces off Schouwen Bank yesterday, says an official statement issued by the British admiralty this afternoon. The German vessels were repeatedly hit, but they succeeded in reaching the Belgian coast.

The text of the official statement says: "At midnight of July 22, while near the North Hinder Light vessel, some of our light forces sighted three enemy destroyers who retired before damage could be inflicted on them."

"Subsequently off Schouwen Bank six enemy destroyers were engaged and a running fight ensued during which the enemy was repeatedly hit, but he succeeded in reaching the Belgian coast."

"One of our vessels was hit once and one officer and one man were slightly wounded. There was no other damage or casualty."

British Attacks on West Front Said to Be Increasing in Force.

BERLIN, via London, July 24.—The correspondent of the Lokal Anzeiger on the Somme front, describing the fighting of July 19-20, says:

"Even the powerful force of the enemy's attacks in the first days of July is greatly surpassed by the rapid, unrelenting and tenacity of these new attacks. No matter how often the enemy is repulsed they return again and again, in fresh waves of assaults. As if their army were inexhaustible, they try to storm our positions against our hammering machine guns and crackling rifle fire."

Torpedo Boats Undamaged, Says Report.

BERLIN, via London, July 24.—An official statement issued today by the German admiralty says:

"On the night of July 22-23 German torpedo boats starting from Flanders undertook a raid extending until they were close to the mouth of the Thames without sighting hostile naval forces there. While returning they encountered several small British cruisers of the Aurora class and destroyers. A short artillery engagement followed, in the course of which we obtained lucky hits. Our torpedo boats returned to their base undamaged."

The statement follows: "It is now evident that the British attack reported yesterday against the front from Thiepval to Guillemont was made by parts of H. British divisions, several of which were hurled from other fronts. The only advantage gained by the enemy on the whole line not yet rectified by the Germans is that he suc-

tared some houses in Posen for which he paid an extraordinarily heavy loss.

"The enemy was defeated at Longueval by a powerful counter attack by the Brandenburg grenadiers of Douaumont fame. In the gravel pit southeast of Guiller-out, where the enemy had temporarily gained a footing, the Germans took prisoner three officers and 141 men unharmed.

"South of the Somme small French enterprises failed under the German fire near Soyecourt and west of Vermandovillers.

"There has been only a temporary decrease in the artillery engagement.

"Since July 15, up to the present, booty taken by us has been counted as comprising 68 machine guns.

"On the right bank of the Meuse (Verdun sector) the artillery activity on both sides at several times assumed great intensity. The infantry has not been active."

RUSSIANS SAID TO HAVE ADVANCED 12 MILES NEAR RIGA

LONDON, July 24.—The Germans have been driven back 12 miles at one point on the Riga front, according to a Reuters dispatch from Petrograd. Progress for the Russians is claimed on a front running from the Gulf of Riga to Kull, a distance of more than 30 miles, the greatest advance being made along the coast line.

The dispatch says that fighting went on without pause for four days prior to Sunday. It has now halted, as the Russians require to consolidate the ground they have gained and the Germans are waiting for reinforcements.

RUSSIAN FORCES NEAR ERZINGAN

PETROGRAD, July 24.—Russian forces operating in Turkish Armenia are steadily advancing upon the fortified town of Erzincan, from the north and the south, says a Russian official statement issued today. On the East the Russian advance guards are within 15 miles of the place, which is 90 miles southwest of Erzurum.

German Offensive on Stokhod Fought, Says Petrograd

PETROGRAD, July 24.—Tentative troops in Volhynia tried to break the Russian line along the river Stokhod, near Beresinca, 25 miles northeast of Kovel, but failed, and were compelled to retire, the War Office announced yesterday. The statement said:

"In the Riga positions there has been an intense artillery duel.

"Northeast of Smorgon (50 miles east of Vilna) in the vicinity of the village of Martyshe, the Germans tried to advance with the object of regaining the positions we took from them yesterday, but under the fire of our batteries they were compelled to retire. All further efforts of the enemy to develop counter attacks failed under our rifle and artillery fire.

"On the Stokhod, in the district of Zvenj-Berestica the enemy attacked at 9 o'clock in the evening, but was compelled to retire.

"In the district of Vorokhta-Tsarova, on the road from Delatyn to Marame-Snigret, we have taken prisoners and officers, including a battalion commander, 483 men, three cannons and four machine guns. In the Carpathians there are rains and snow.

"During July 20 and 21, on the eastern front, we took prisoners 200 officers, one General and one Colonel, 1370 men and 10 guns. The total number of prisoners, including those given in the official communique yesterday morning, amounts to 27,000 men. The total number of guns taken is 40."

British Boats Near Suez, Says Constantinople.

CONSTANTINOPLE, July 24.—A further retreat of Russian forces in Persia under Turkish pressure is reported in today's official War Office statement, which says:

"In Persia, Russian forces which fled in disorder eastward, attempted to offer resistance 12 miles east of Paandot. We pursued them. The enemy, unable to offer battle, was obliged to withdraw towards the frontier."

A defeat of British cavalry detachments by Turkish forces east of Suez near the canal is announced by army headquarters in today's official statement. The British fled towards the canal pursued by the Turks.

British detachments advancing west of Katia, 30 miles from the canal, were driven off by Turkish skirmishers.

Foreign Belligerent Submarines Forbidden to Operate in Swedish Waters.

STOCKHOLM, Sweden, July 24.—Consequent upon the Royal decree forbidding foreign belligerent submarines to pass through or remain in Swedish territorial waters, on pain of being attacked without warning, a general order has been issued to the Swedish naval and military forces. It directs that foreign submarines in Swedish territorial waters, unless recognized as neutrals or as merchant ships, are to be immediately attacked.

SCHOLL ASKS GOVERNMENT TO SEND EXPERT TO TEST GAS

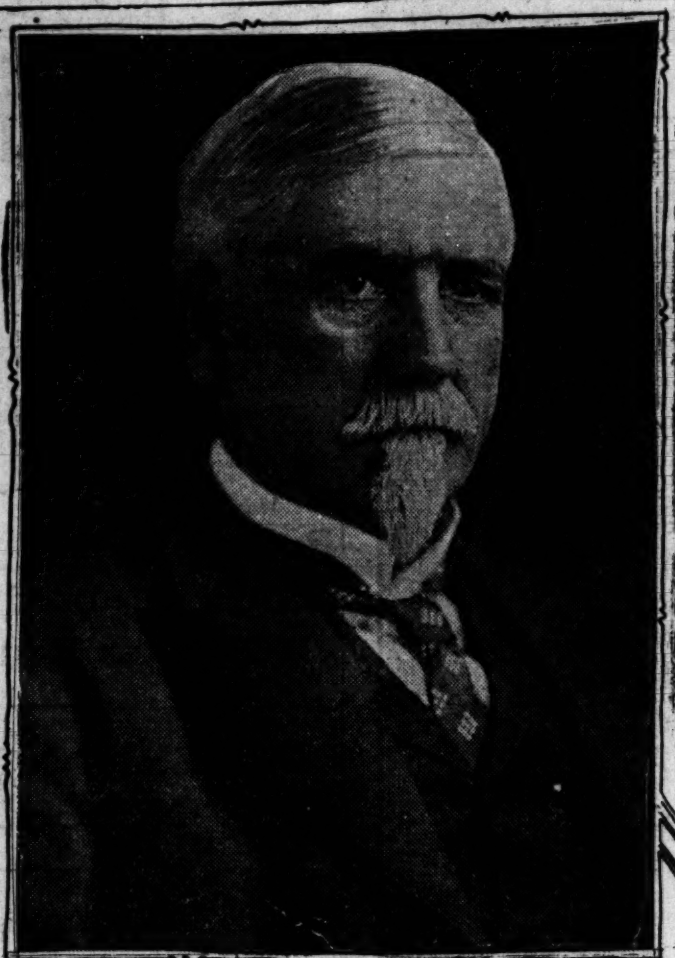

Findings Will Be Used in Deciding Whether System of Manufacture Should Be Permitted.

Expert aid from the National Bureau of Standards, in Washington, will be sought by the special Gas Committee of the Board of Aldermen in connection with its investigation of the plan agreed on by Mayor Kiel and officials of the Laclede Gaslight Co. for changing the gas standard from one of candlepower to one of heat units.

Alderman Scholl wrote to the Bureau of Standards today, asking that a man be sent here as soon as possible to aid the committee in determining the quality of gas and a fair price. In the meantime, Director of Public Utilities Hoch has begun tests of the heating power of the gas with a calorimeter, loaned by Washington University, and has found that in two days it averages about 60 British thermal units to the cubic foot of gas. The candle power has dropped from 15 to 14 to the cubic foot.

The city has now a new calorimeter of its own, purchased by H. H. and a gas-testing station will be opened in the basement of the Municipal Courts Building.

U. S. PLANS AS TO BLACKLIST NOT YET DECIDED UPON

President Says Affair Is Causing Him Deep Concern—Retaliation Believed Probable.

WASHINGTON, July 24.—President Wilson told callers today that the British blacklist against some American firms was causing him a great deal of concern, but indicated that details of the plan of the American Government to meet the situation had not been decided upon. Senator Hoke Smith, who said he spoke only for himself, who declared after seeing the President that he thought the issues would be settled either by withdrawal or modification of a blacklist.

Indications that officials are considering the advisability of taking retaliatory measures against Great Britain for blacklisting nearly a hundred American firms and individuals under the trading with the enemy act are apparent in administration circles here. Definite plans have not developed, but it is intimated that action of that kind may be taken after the State Department learns more about the plans of the British Government.

Sweden retaliated when Great Britain blacklisted Swedish business houses and individuals by refusing to permit shipments for Russia to pass through her territory and the action is understood to have resulted in a modification of the British Government of the black-listed measures. Some officials believe Great Britain will modify her stand toward American firms without the necessity of resorting to retaliation.

BURGLARS IN TWO HOMES ON WASHINGTON AVENUE

One Escaped, but Suspect Is Trapped and Captured in Residence of Mrs. Minnie Brown.

When Harrison Bundy, houseman, went to the C. H. Ledlie home, 4182 Washington boulevard, at 10 o'clock today he found that a basement door had been pried open and heard a noise on the second floor. He called the police. No intruder was found, but the place had been ransacked. Two War Revolvers and two disks were missing.

A policeman passing the home of Mrs. Minnie Brown, 4175 Washington boulevard, opposite the Ledlie home, at 2 a. m. yesterday saw a man cut a screen from a window and enter. They telephoned for reinforcements to surround the house. A few minutes later a man attempted to leave the house by the front door, but ran back when he saw a policeman. One shot was fired at him. A man, found hiding behind a washstand on the second floor, was arrested. He said he was Patrick Connelley of Monroe City, Mo., a machinist. The Brown family was away from home.

GRIP AND NEURASTHENIA

There is a form of neurasthenia that follows the grip. Doctors call it "post-grippal" neurasthenia. One of the foremost medical authorities of New York City in a lecture in the international clinics, said:

"Broadly speaking, every victim of the grip will suffer from post-grippal neurasthenia also. Lowering of nervous tone with increased irritability is the most striking effect of the disease, languor of mind and body, disturbed sleep and vague pains in the head and elsewhere. The treatment calls for rest and a tonic."

Dr. Williams' Pink Pills, a non-alcoholic tonic, are particularly suited for building up the blood—and strengthening the nerves after attack of the grip. The rich, red blood expels the lingering germs from the system and transforms despondent grip victims into cheerful, healthy, happy men and women.

If you have had the grip get a box of Dr. Williams' Pink Pills now from the nearest drug store and begin the treatment at once.

On request we will send you a free pamphlet, "Building Up the Blood," which contains a chapter on the grip. Address the Dr. Williams Medicine Co., Schenectady, N. Y.—ADV.

COMPLAINTS MADE AGAINST EL PASO MILITIA OUTPOSTS

Massachusetts Men Charged With Crossing Border and Shooting Up Mexican Homes.

EL PASO, Tex., July 24.—Gen. Francisco Gonzalez, commandant at Juarez, formally protested today to Gen. Bell Jr., commanding the American forces here, against the conduct of the outpost guards of the Ninth Massachusetts Infantry, who, he said, crossed into Mexican territory yesterday morning "in violation of Mexican rights" and last night shot up "without provocation" a number of homes of Mexicans south of the border.

Changes Which Gonzalez Intends to Make in Law as to Foreign Investments in Mexico.

NEW YORK, July 24.—Radical changes in the laws governing foreigners doing business in Mexico are about to be made by Gen. Carranza, in a series of decrees which later will be included in a new Constitution, according to recent arrivals from Mexico City.

The new regulations, it is said, will provide that all foreign investors before entering Mexico must agree not to have recourse in any case to any law other than that of Mexico, and that they will not be entitled to any privileges not enjoyed by Mexicans. It will also provide that foreign capital already invested in Mexico may enjoy the right to be considered foreign and be entitled to the protection of its own government until the expiration of the concession agreement that it may have entered into, provided it is not for a very long period.

Another provision is designed to fix a uniform period for all the long or unlimited contracts, leases or concessions in which foreign capital is interested and at the end of which they will be considered subject only to the authority of the Mexican Government, and deprived of the right of appeal for protection to their respective Governments.

These measures, it is understood, are to be incorporated in the Mexican Constitution when the Mexican Assembly meets in Queretaro in the near future, and it is the belief of First Chief Carranza and his advisers that they will suffice to avoid the danger of complications with European Powers and, as a natural sequel, will lift from the United States the responsibility of defending the territorial integrity of Mexico against the possibility of seizure of lands or properties by any foreign nation in order to pay the claims of their nationals.

KAISER QUOTED AS SAYING HE WANTS TO BE IN TRENCHES

Life Must Be Guarded to Carry Out "Duties Assigned by Divine Appointment."

LONDON, July 24.—Emperor William, during his recent trip to a point somewhere in the rear of Peronne, on the Somme front, says a dispatch to the wireless press from Bern, made a speech to the German wounded soldiers which is attracting great attention in Germany. The German Emperor is quoted as saying:

"It is the most poignant grief of my life that I am unable to take a more active part in this war. It is my earnest desire to take my place in the trenches and to deal such blows at our enemies as my age and strength would permit."

"I could take my place with the youngest of you and I promise that I would leave my mark on the enemy. But the inscrutable Almighty has willed otherwise. Into my care has been committed by divine destiny the leadership of our country, its armies and its forces on land and sea."

"The burden of thinking, deciding and leading has been hard upon me, and realizing this I know that my life must not be risked in the foremost line of battle where my feelings, if unstrained, would carry me swiftly."

"My life must be conserved carefully for the welfare of Germany, in order to carry out the duties assigned to me by divine appointment."

DEATHS INCREASE, NEW CASES FEWER IN NEW YORK EPIDEMIC

31 Die of Infantile Paralysis in 24 Hours, 80 Develop Disease.

NEW YORK, July 24.—Another gain in the number of fatalities and decrease in the number of new cases was reported by the Health Department today when the epidemic of infantile paralysis entered its fifth week. During the 24 hours ending at 10 a. m. today there were 31 deaths and 80 new cases reported in the greater city, as against 23 deaths and 115 new cases during the corresponding period yesterday.

ALBANY, N. Y., July 24.—Thirteen additional cases of infantile paralysis were reported to the Department of Health today from different places in the State outside of New York City, making a total of 224 cases of the disease. Two deaths were also reported, increasing the number of fatalities to 25.

TRANS FROM SOUTH WATCHED FOR CASES OF PARALYSIS

Reports From There Cause Health Authorities to Extend Scope of Examination of Children at Union Station.

As an additional precaution against the possible entrance of infantile paralysis into St. Louis, Health Department physicians today extended their inspection to all trains arriving from points in the South. Heretofore only children coming into the city from Eastern points were examined.

Dr. M. C. Woodruff, in charge of the inspection force, said a few isolated cases of the disease had been reported from some of the larger Southern cities and for this reason it was thought well to extend the inspection.

There is now no case of infantile paralysis in St. Louis. The contagion danger period on the only case reported here expired July 11.

HOW AUSTRALIANS TOOK POZIERES OUTWORKS IN THIRD PHASE OF DRIVE

Attack Begun at 1 A. M., After Bombardment of German Line Had Continued for Three Weeks, 24 Hours Each Day.

By an Associated Press Correspondent WITH THE BRITISH ARMY IN THE FIELD, July 24.—To the Australians is the glory of today's action, which takes the British offensive to the end of its third week and what might be called the third phase. Not once in three weeks have the guns been silent. All the while the fighting was continued until the spectator has become numbed with this superhuman struggle.

Mud-covered men return from the trenches and rested battalions go in. Prisoners taken in each fresh attack express the same wonder at the persistent hammering of the British. It has become 24 hours a day, the army fighting night as well as day.

The attack on July 1, initiating the offensive, began at 7:30 in the morning, that of July 14 began at 3 o'clock in the morning, that of today began about 1 o'clock in the morning. While resisting many counter attacks through the week, Delville wood has become a hamlet. The British have been creeping forward. More little round spots of sap and trenches extend as the human moles dig their way forward. More German artillery and more troops have been massed to meet the increasing numbers of the British while the British guns kept moving nearer and practicing shots at targets for future concentrations of fire.

More important than ever to either side are those points of high ground on the front of the British position. Both straining combatants strive for the positions, saying "I must have that."

Pozieres is in ruins.

All last week the Associated Press correspondents kept their eyes on some black, stick-like points resembling broken telegraph poles, which were once shade trees in the village of Pozieres. Villages like La Boisselle have become so unrecognizable from shell fire that one does not know where the village begins or ends. But the sticks of trees are whittled and whittled by the shell bursts until a direct hit at the base levels them.

Pozieres, as under the same British shell fire as the other villages suffered before the Germans were forced out. Not a human being was seen in the neighborhood except near a communication trench, in front of which a few British were making a shell crater into a shell fortress. Across the way the Germans were engaged in the same business, both having crept out to their positions in the night. The British yelled satirical thanks to the Germans for sinners for their speeches, which were being made into British positions.

By the location of the shell bursts in the morning it could be seen how far the British had worked their way up over night. Through all the army there is a sense of exultation, which seems to allow no one to become tired—exultation over an army's first offensive. The death of comrades, officers or men, is accepted as something inevitable, and there is a strange absence on the part of the British of any grimmings. They go at it as part of the day's work. One of the humors of the week to the

army is the German gas shells. At first such numbers of them were astounding, especially those which do not explode but emit a volume of gas. One British soldier called out: "You expect to kill us with them, you have to come over and hold them up to our noses."

Another called to the Germans: "They aren't as sweet as eau de Cologne, but we like them better than your shrapnel and high explosives."

The British officers are worried lest the British public, hearing of the large volumes of gas shells, will insist that the British begin the use of a weapon which seems wholly disbelieved in by the British army experts.

"Pozieres will be a hard nut to crack," everybody has been saying in the last few days as he looked at the sticks of trees and ruins of the knoll above Olliviers. That task was given to the Australians this morning.

Smooth-shaven, clear-cut of feature—there is no mistaking the Australian at the front. He wears a slouch hat while all the rest of the British wear caps. A rising sun is his badge. His ways are democratic, his pay is the highest of any soldier in Europe, which he spends freely. Open air men, with plenty of initiative, some say that the discipline of the Australian is poor. Asked if he did not know it was the duty of a soldier to salute a superior officer, an Australian replied:

"I am a fighter, not a soldier, sir, and absent-minded."

Get into Pozieres.

There are many little stories. The men have much to learn of military formality. Some of the military critics said the Australians were all right for Gallipoli, but not for this kind of work against the Germans. Today they had their first big test in France. The freer-limbed sons of the South chafing from their trenches on their venture in the darkness against the new German trenches around Pozieres did not have much to say about the first German trench, or at least they did it quickly. Then out of the confusion of the night illumination, shell flashes, which is the hardest test for a military organization, came the news when there was little news from other points of attack, that the Australians were past their objectives, and then the main street of Pozieres, which is the main road to Bapaume, and hugging close the German on the other side of the street, so that the German artillery could not fire on them.

People had said that either the Australians would get there or be killed, and the surprising thing, the wounded say, is how few were killed.

"Birds" is the nickname of Lieutenant-General Birdwood, their commander, whom they would follow through any hot place. His fellowship with them conceals a steel discipline. The Australians met the 11th German division, which had been rushed from Tynes and prisoners taken, including 100. In a body, say frankly that the Australians came too quick for them. All other

point over the four-mile front the British attacked at the same hour at some points for diversion and at some points in earnest.

The hottest fighting was in the terrible region, the Delville wood, the Trones wood and Chillemont. The British rushed the village from the Trones wood and the French. The battalion on the flank got in on the attackers on the front was pushed forward and the successful battalion was forced back, but it gained a footing which it still holds.

French Report Tells How German Met Death in Isolated Redoubt.

PARIS, July 24.—The destruction of German fortified work on the Somme front was marked by a tragic episode, says La Liberte. The order was given to destroy the fort at whatever cost. In less than six hours more than 100 great shells were fired at it, and the defense gave way one by one in a cloud of dust and smoke. The infantry then went forward and the German positions were conquered.

French artillery officers, examining the ruins, discovered amid a mass of debris a Bavarian officer with his chest crushed and near death. At sight of the French officer the Bavarian seemed to collect himself, then began to groan softly, the Frenchman kneeling beside him.

The story told by the Bavarian and later repeated by an artillery officer was to the effect that 21 men had occupied the work. After the bombardment had continued for a time half of the men were victims of an awful death. Two were decapitated, and of three others, near whom a shell exploded, not a vestige remained. The survivors crouched at the bottom of the subterranean shelters and awaited their fate.

Another terrific explosion occurred, the men being thrown together in a confused heap. Almost immediately flames shot up from the underground cavern. There was a moment of indescribable terror, for new fire was ravaging the work. The Lieutenant in command went mad and shouted wildly at imaginary things. Then, in the sinister glare of the flames, the officer sat furiously on his men, killing one after another, and was himself burned to death.

The Bavarian determined not to be by the hand of his chief, and scaled the ruins, clinging to a slope of the work, only to be buried under a block of stone. He died soon after the French officers found him in the hospital to which they carried him.

AUTO STALLS ON RAILROAD TRACK, ONE MAN KILLED

Another Wedged in Seat With Him Badly Hurt, Third Escapes

Ulysses G. Van Osdale, a coal miner, was killed, and Archie Stokes, an electrician, was seriously injured yesterday when an automobile in which they were riding stalled on the Illinois Central Railroad crossing at Mill street, Belleville, and was struck by an engine.

Accompanying them in the machine was Harry Van Osdale, brother of Ulysses. He jumped and was uninjured. They had been riding about town in the car, which was an old one. Approaching the crossing they saw the engine moving toward it, but thought they easily could cross ahead of it.

The wheels of the automobile dropped into a depression at the crossing and the engine of the automobile went dead. Only one of the men had time to jump, the others being wedged together in a seat of the small machine.

The auto was demolished. Ulysses Van Osdale was thrown headfirst to the street. Stokes fell under the engine. His right arm was almost severed near the shoulder and his left leg broken in several places.

Calls for pure milk with which to combat summer maladies among the infant population of the city are on a steady increase. It was stated to a reporter for the Post-Dispatch by Secretary Mortland of the St. Louis Pure Milk Commission today, a natural consequence of the prolonged spell of high temperature.

"We are able to furnish all the milk that is necessary," he added, "and are certain that great good is being done."

In order to further the work of carrying life and health to the babies in the homes of the poor, the Pure Milk Commission has opened two clinics in addition to the dozen established earlier in the season, where expert instruction on proper feeding and care of infants in hot weather is given. One of the new ones is in the building known as the old children's hospital, Jefferson and Adams avenues, Thursday, at 9:30 a. m., and the other is known as the St. James Clinic, Pendleton and St. Ferdinand avenues, Fridays, at 2 p. m.

Clever Vanderville Show.

One of the most charming Post-Dispatch Pure Milk and Free Ice Fund benefit affairs of last week was the Vanderville show given by five children in the rear yard of Dr. Joseph Grindon, 1818 Morgan street, from which they earned \$14.72.

The entertainment opened with "The Old-Fashioned Girls," in which Margaret Jackson and Pauline Grindon danced a minuet, being followed by clowns in costumes so unique that they entirely captivated the audience. Gertrude Wick, Margaret Jackson and Pauline Grindon admirably sustained this feature.

Then came "The Trooping of the Flowers," in which all the children appeared, each being dressed to impersonate a flower, including the daisy, poppy, blue-bell, cowslip and bluebell. "The Dance of the Nations" followed, and, as in the case of the flower act, each child was in costume to represent a nation. Gertrude Wick was Japan, Pauline Grindon was Ireland, Dorothy Grindon was Holland, Margaret Jackson was Persia and Estelle Quint was the United States.

The last act was "Snow White and Rose Red," a playlet adapted from Grimm's fairy tales by the children. Pauline Grindon was "Snow White," Gertrude Wick was "Rose Red," Margaret Jackson was "The Evil Witch," and Dorothy Grindon was "The Prince."

BRITAIN REPLIES IN PART TO U. S. MAIL COMPLAINTS

Says Two Cases of Delay Cited Do Not Support Charge of Inefficient Censorship.

LONDON, July 24.—The Foreign Office has published the text of the note handed to the American Ambassador replying to certain American complaints against the British censorship of mails. The reply is confined to the few specific allegations of the recent American note. It is stated that the formal answer to the general arguments advanced by the Washington Government still is under consideration by the British Government and will receive reply in due course.

The two principal cases referred to in the present memorandum are those of the MacNiff Horticultural Co. of New York and the Standard Engraving and Cable Co. of Pittsburgh. The MacNiff company complained of the loss of perishable goods owing to the detention by the censor of shipping documents relating thereto.

"The British Government states that as soon as the matter was brought to its attention it arranged to have a special mail bag for shipping papers, which would be immediately forwarded, so no delay would occur."

In the case of the cable company, it is stated that "the Government of the United States appeared to insinuate" that the delays in the mail of the cable company were directly connected with the fact that a British competitor had obtained a contract for which that company had been tendering."

"His Majesty's Government," the note concludes, "is astonished that such an insinuation should be made, especially as the complaint from the cable company appears not to have been adequately examined."

The memorandum goes on to show in considerable detail that tenders for the contracts referred to must have passed between the United States and Norway on a date prior to that upon which the censorship of Scandinavian mails began. After detailing other cases, the note continues:

"Says Charge Is Not Supported."

"The specific complaints do not support the general charge against the efficiency of the British censorship. His Majesty's Government will always be ready to explain in detail the working of the censorship, as there is nothing regarding it which they wish to conceal."

"Many complaints, when examined, proved to arise from badly directed letters, the irregular sailing of neutral mail boats and other causes entirely outside the control of His Majesty's Government, and are often due to the action of enemies."

U. S. to Request Another Reply to Note on Mail Seizures.

WASHINGTON, July 24.—Great Britain's partial reply to the American note protesting against interference with neutral mails is regarded by officials as unsatisfactory, principally because it deals with specific cases instead of the principles involved. Officials infer from the communication that Great Britain is determined to uphold her attitude which the United States regards as unwarranted and without authority in international law.

Acting Secretary Polk said he would cable Ambassador Page repeating the request for an early reply to the last American note. He said the memorandum now is before President Wilson.

ASQUITH DELAYS IRISH BILL DESPITE REDMOND WARNING

Premier Insists Upon Substantial Agreement Upon Measure Before Introducing It.

LONDON, July 24.—Premier Asquith today told John Redmond, leader of the Irish Nationalists in the House of Commons, that the British Government does not propose to introduce an Irish bill upon which there does not appear to be the prospect of a substantial agreement by all political parties.

Redmond obtained leave to move the adjournment of the House in order to call attention to the rapidly growing unrest in Ireland owing to the fact that the Government did not propose to carry out in entirety the terms submitted for the temporary settlement."

Subject to Approval.

Redmond asked amid Nationalist cheers whether the Government had decided to depart from the terms of the agreement arrived at by the Irish party and based upon the proposals made by the Secretary of War, David Lloyd-George, whether the Government had determined to insert in the bill new proposals at variance with the agreement without consulting the Nationalists, and whether the Premier had received any intimation that a bill so framed would be vigorously opposed by the Nationalists.

Premier Asquith in reply pointed out that the agreement was subject to approval of and revision by the Cabinet. Two main points, he said, had emerged from the agreement, and these had been accomplished by both sections of the Cabinet, Unionists and home rulers. The Unionists, the Premier said, influenced very largely by the attitude of Redmond and his friends during the war, had agreed that home rule should be brought into immediate application while the home rule section had agreed that the six Ulster counties should be brought in without their consent.

Premier Asquith continued: "In the course of setting up a bill to give effect to this object two questions arose which required consideration as to the form in which the exclusion of the Ulster counties should be provided for. It was common ground to all parties that this area should not be subject to automatic inclusion and they would not do more than to make that sure."

"The other question was the retention after home rule of Irish members in the Imperial Parliament in undiminished numbers. After final and full examination of the question, the Government felt that they could not and asked whether it could not expect the House of Commons to agree that the full number should be retained after an election. The Government had no intention of introducing any home rule bill with regard to which there was a substantial agreement among all parties."

Redmond Moves Adjournment.

Redmond then moved the adjournment of the House to call attention to the matter.

Redmond repudiated the interpretation placed upon the agreement by Premier Asquith and asked whether it was not a fact that on Saturday last War Secretary Lloyd-George and Herbert L. Samuel, the Home Secretary, had sent him a message saying that decision had been reached by the Government on the two points mentioned.

Premier Asquith, repeated that the Government would not introduce any bill until it was satisfied that it met substantially with the assent of all parties.

ZACHRITZ SHOULD BE BEATEN ON HIS RECORD IN RACE FOR BENCH

Grand Jury He Instructed in 1902 Failed to Indict Central Traction Boodlers Exposed by the Post-Dispatch.

Seven candidates for Judge of the St. Louis Circuit Court will be nominated by the Republican, Democratic and Socialist parties at the State primary election Aug. 1. There are 25 Republican candidates, nine Democratic candidates and seven Socialist candidates for the nominations. Three of the Republican judges whose terms expire next January are candidates for re-nomination: Wilson A. Taylor, James E. Withrow and Leo S. Rastleur.

Judges of the Circuit Court are elected for six-year terms. William Zachritz, of 2221 Lafayette avenue served one term as Circuit Judge from 1896 to 1902, and was defeated for re-election in 1902. On his official record he should be defeated again.

Zachritz Beaten in 1902.

William Zachritz, who has been put on the Kiel-Schmidt slate for the Republican nomination for Judge of the St. Louis Circuit Court, was defeated for re-election as Circuit Judge in 1902, upon the nomination for Mayor in 1901, and for re-election to the bench in 1902, the St. Louis Globe-Democrat, the Republican organ, denounced him editorially and declared that his nomination would be a mistake and a peril.

Zachritz succeeded Mayor Kiel as Republican City Committeeman in the Fifteenth Ward, following Kiel's election as Mayor. He has been a component and useful part of the Kiel-Schmidt Republican machine. Mayor Kiel is playing every possible card of the political game to win a re-nomination for Mayor next spring, and in recognition of Zachritz's services in the political organization, Kiel and Schmidt have placed him on their slate, in the belief that if he should be nominated the Republican majority in November will be great enough to carry him over.

Zachritz was Judge of the St. Louis Circuit Court in 1898. When Robert M. Snyder bribed through the Municipal Assembly at a cost of \$250,000 the famous Central Traction franchise, afterwards sold to the predecessors of the United Railways Co. for \$1,250,000, The Post-Dispatch, April 18, 1898, published complete details of the Central Traction bribery.

One week later Judge Zachritz delivered a famous charge to a St. Louis grand jury instructing it to investigate the accusations of bribery made by the Post-Dispatch, and if these charges could not be substantiated, to indict the editors of the Post-Dispatch for criminal libel.

"Convincing documentary evidence was unearthed proving that the sum of \$146,000 was placed in escrow in a bank of this character to be paid to the members of the Municipal Assembly for the passage of a valuable franchise ordinance. This bill failed, and a second ordinance was introduced, upon the passage of which the sum of about \$250,000 was distributed to the members of the Municipal Assembly for passing the Central Traction bill, and that the facts published in the Post-Dispatch in 1898 were true in every respect."

"We regret that the grand jury of three years ago, which made a fruitless investigation of municipal scandal, was unable to secure the evidence which we found so readily and which could have been more easily obtained at that time. We cannot but believe that if the officers whose duty it was at that time to prepare and present matters of this kind to the indicting body had discharged their duty faithfully and vigorously the result would have been different."

In the trial of Snyder the fact, was fully established that \$250,000 in bribes was paid to members of the Municipal Assembly for passing the Central Traction bill, and that the facts published in the Post-Dispatch in 1898 were true in every respect.

Zachritz, in an explanation he made when he was a candidate for re-election in 1902, said that the reason he had instructed the grand jury to indict the editors for criminal libel was because he did not believe what he read in the Post-Dispatch.

Two Weeks Limit in Pipes—Vesel to Take Gold, Depart.

BALTIMORE, July 24.—The wireless equipment of the German submarine Deutschland was sealed today by a Government radio inspector. When Capt. Koenig reported his arrival at the custom house on July 10 he was informed by customs officials that it he stayed in port more than two weeks his wireless would be sealed.

The two weeks' limit expired today. Asked today when the Deutschland would sail on her return voyage to Germany, Paul G. L. Hilken, member of the Eastern Forwarding Co., said she would start "just as soon as we can get her ready, and that will not be much longer."

From a source regarded as most reliable it was ascertained today that the Eastern Forwarding Co. has successfully closed its negotiations for a large consignment of gold to be taken back on the submarine. It was said the gold would be put aboard today and that the boat will then be ready to leave.

Only one of the allied warships patrolling the Virginia Capes was in sight early today and she was cruising for out to sea, according to advice from Norfolk.

POLICE CLERK ROBBED ON CAR

Pickpockets Get \$10 When He Is Returning From Illinois Fishing Trip.

Robert Kreutzer, a clerk in the Mounted Police District, is thankful he paid his fare before pickpockets took his money on an Alton car last night. He was returning from a fishing trip at Mitchell, Ill., and when he reached the side of the bridge he found that he had been robbed of \$10 and some change.

THREE OF ELEVEN CANDIDATES FOR GOVERNOR IN CITY

Morris and Lamm, Republicans, and Roach, Democrat, on Vote-Getting Tour.

SOME OTHERS DUE LATER

Local Vote Expected to Be a Big Factor in Deciding the Primary Contest.

Three of the 11 Democratic and Republican candidates for Governor are in St. Louis today making an effort to get a part of the big vote the city will cast in the State primary election Aug. 1. Nearly all the other candidates will be here during the week.

Charles D. Morris of St. Joseph, Republican candidate for Governor, is conferring with his supporters, among whom are E. E. McElmurray of Springfield, Judge Henry Lamm of Sedalia, also a Republican candidate, who was scheduled to arrive here last night, did not get here until afternoon. He will speak tonight at Iowa avenue and Cherokee street, Blair and St. Louis avenues and Marcus and Easton avenues. Morris said that he had not decided whether he would make any speeches in St. Louis. Secretary of State Cornelius Roach, Democrat, came in during the morning and will make two speeches tomorrow night, one at Eighth street and Franklin avenue, and the other at Euclid and Easton avenues. Roach said that regardless of the claims of other candidates he expects to be nominated by a big plurality.

Fred D. Gardner, who is making a tour of Boone County with Omar D. Gray, his campaign manager, will return to St. Louis tonight, and will do some more campaigning in St. Louis. The Rev. A. N. Lindsey of Henry County will be here Thursday; James A. Houchins, who is in Southeast Missouri, will be here Wednesday and will spend the remainder of the time until the primary campaigning in St. Louis. John T. Barker is also expected here during the week for several speeches. At the headquarters of John M. Atkinson it was not known whether he would be in St. Louis again before the close of the campaign, but he was here yesterday conferring with his supporters.

John E. Swanger, Republican, will be here Wednesday and Thursday, and will make several speeches in different parts of the city. Judge Lamm will return to St. Louis Saturday to close his campaign here.

City's Vote a Big Factor. Politicians estimate that the Republicans will cast from 30,000 to 35,000 votes in St. Louis in the primary election, and the Democratic vote is expected to be from 30,000 to 35,000. The candidate who gets a big lead in St. Louis will have a decided advantage in the contest.

D. C. McClung, chairman of the Democratic State Committee, told a Post-Dispatch reporter at the Planters Hotel today that he was taking no part in the contest for the gubernatorial nomination. He said that he did not feel that it would be proper for him, as chairman of the committee, to become active in the fight in behalf of any candidate.

PARENTS OF 14 CHILDREN, 9 LIVING, ARE DIVORCED

Wife of Stone Mason Says He Was Cross, Quarrelsome and Swore at Her.

John Christian Baugh and Agnes N. Baugh of 1530 Belt av., the parents of 14 children, 9 of whom are living, were divorced by Judge Hennings today on the wife's petition. She obtained the custody of the five minor children, an order for \$10 a week alimony for their support, and an order for \$500 gross alimony for herself. Baugh is a stone mason, and his wife said he was cross and quarrelsome, and that he swore at her.

The Baughs separated Nov. 24, 1914, the wife said, after 26 years of married life, and they have since lived apart in the same dwelling, with several of their children. She charged that he was cross and quarrelsome, and that he swore at her.

WILL STUDY TALENTED CHILD

Rockefeller Board Plans to Economize School Time and Energy. NEW YORK, July 24.—The talented child is now to be studied and investigated by John D. Rockefeller's General Educational Board. An appropriation has been made for the purpose, and the inquiry will be under the direction of Prof. Guy M. Whipple of the University of Illinois. "Up to this time," says Frederick T. Gates, chairman of the General Educational Board, "much special study has been devoted to improving the education of defective children, but comparatively little attention has been paid to a systematic and thorough study of the talented child. Prof. Whipple will endeavor to find out how early in their school life gifted children can be spotted and how much school time and energy they can economize."

DENVER, Colo., July 24.—Thomas M. Patterson, former United States Senator, died at his home here yesterday. He was in his seventy-seventh year and had been in poor health for several weeks.

Senator Patterson was widely known as an editor, attorney and political leader. He represented Colorado in the United States Senate from 1901 to 1907, and was for many years the owner and editor-in-chief of the Rocky Mountain News and the Denver Times. He was a national leader in the Populist party movement and was equally well known as a Democratic leader. His fortune, consisting largely of Denver real estate, is estimated at several millions.

He was the Democratic nominee at the last gubernatorial election, and was defeated by Gov. George C. Carlson. He came to America from Ireland in 1849. He was a veteran of the Civil War.

FOUR WEEKS IN HOSPITAL

Mrs. Brown Finally Restored to Health by Lydia E. Pinkham's Vegetable Compound.

"For years I suffered so sometimes it seemed as though I could not stand it any longer. At times I could hardly walk, for if I stepped on a little stone, I would almost faint. One day I did faint and my husband was sent for and the doctor came. I was taken to the hospital and stayed four weeks, but when I came home I found just the same and had the same pains."

"A friend who is a nurse said for me to try Lydia E. Pinkham's Vegetable Compound. I began taking it that very day for I was suffering a great deal. It has already done me more good than the hospital. To anyone who is suffering as I was my advice is to stop in the first drug store and get a bottle of Lydia E. Pinkham's Vegetable Compound before you go home."

—MRS. W. C. BROWN, 109 Auburn Avenue, Cleveland, Ohio.

TWO MORE HURT IN BOMB EXPLOSION EXPECTED TO DIE

San Francisco Mayor Posts \$5000 Reward for Arrest of Infernal Machine Slayer.

SAN FRANCISCO, July 24.—To the death list of six resulting from the explosion of a bomb in Saturday's preparedness parade, it is expected that two and probably more of the 44 injured will be added, first of the injured being reported in a critical condition.

Mayor Doherty has offered a reward of \$5000 for the arrest of the culprit. A mass meeting to "express an opinion on the bomb outrage" was called today for next Wednesday by Frank J. Koster, president of the Chamber of Commerce and chairman of the Committee on Law and Order.

Several definite clues are being followed. Two men who claimed to have seen the man with the suit case believed to have contained the infernal machine, described him as about 35 years old, tall and shabbily dressed. A private reward of \$1000 has been offered by the brother of one of the victims.

A new angle was presented to the police by Dr. J. Morn Moss, who said the explosive either was tossed into the crowd or dropped from the top of a one-story building at Market and Steuart streets. Dr. Moss said he was in Steuart street at the time and observed a black object surrounded by smoke falling through the air. It fell into the crowd and the explosion followed.

BREAKS CAR WINDOW WITH FIST

Saloon Man Who Had Been Passed Up Three Times Is Arrested.

Hugh McNulty, a saloon keeper, 30 years old, of 629 South Broadway, thrust his right arm through a vestibule window on a Broadway car at Thrum street last night and was badly cut. The police arrested him.

McNulty said three cars had passed him and when the fourth stopped, others who were trying to get aboard pushed him and caused the accident. The conductor said McNulty's act was deliberate.

CONFERENCES ON NAVY BILL TO BE HELD THIS WEEK

Likely to Result in Reduction of Senate's Eight-Skip Building Plan.

WASHINGTON, July 24.—The national defense program will occupy the Senate most of this week. Debate on the army bill, resumed today, is expected to last for several days, and before the week is over Senate and House conferees will meet in a struggle over a building program for the navy. The conferees likely will have the Senate's eight capital ship plan for next year.

Efforts will be made to get final action on both army and navy conference reports early in August. Adjournment is set for Aug. 19, but insistence on child labor legislation may alter the plan. Senate Democrats probably will caucus this week to decide whether there should be a vote on child labor.

Factory Foreman Cuts Throat.
Tony Duford, 24 years old, 308 South Broadway, a factory foreman, cut his throat with a razor last night at his home, and was taken to the city hospital in a serious condition. Though able to talk, Duford refused to give a reason.

**SARAH BERNHARDT
TO TOUR AMERICA
AGAIN THIS FALL**

Arranges to Bring Over Repert-
oire of Plays and Playlets,
Including "Cathedrals."

Special Cable to the Post-Dispatch
and the New York World.
[Copyright, 1916, by Press Pub. Co.]
NICE, France, July 24.—Displaying the
same indomitable spirit that has kept
her on the stage since her operation a
year ago, despite her artificial right leg
and her 72 years, Sarah Bernhardt told
a Post-Dispatch correspondent today
about her plans for acting in the United
States in the fall. She is summing at
the Villa Primrose at Boulogne, between
St. Raphael and Nice, and received the
correspondent there.

"Tell the American people," said the
great actress, "that I am coming back,
but not for my revival. This is not my
final tour."
"I shall not appear in a repertoire of
five-act plays for several seasons. First,
it is impossible to obtain an adequate
supporting company with nearly all the
good actors in the trenches, and second,
my condition forbids."

"But Mr. Conroy, my American man-
ager, has submitted a plan which I
have accepted, to appear in a repertoire
of plays and playlets, several of which
I used in London. In some I will speak
English for the first time in America.
One play is 'Cathedrals,' which I did in
the trenches for the soldiers."

The program will include a symphony
orchestra of 40 musicians, with a special
scenic setting, so that the orchestra
will play from the stage instead of from
the pit. A prominent American his-
torical actress, in Greek attire, will ap-
pear before the curtain first, explaining
the spirit of the text of the play to be
presented in French. This will enable
those unfamiliar with the French lan-
guage to understand.

"Tell my American friends that, in the
immortal Gen. Gallien's words, I am
with them 'jusque au bout'—to the
end."

An interesting novelty is in store for
American playgoers. Mme. Bernhardt
will take to America with her a noted
singer who will sing "The Marseillaise"
at the close of each performance.

Mme. Bernhardt will return to her
Paris home in August. Before going
abroad she will again pose for motion
pictures, and will act in the trenches.

NEW YORK, July 24.—William F. Con-
nor, American manager for Mme. Bern-
hardt, has received word from her that
she will sail from Liverpool at the end
of September.

**Riley's Last Poem,
to the Memory of
a Boyhood Friend**
INDIANAPOLIS, Ind., July 24.—
JAMES WHITCOMB RILEY'S
last poem, "To George A.
Carr," written July 21, 1914,
Carr was a boyhood friend of Ri-
ley, and when he died the poet
composed the following tribute to him:

O playmate of the far-away
And dear delights of boyhood's day,
And friend and comrade true and tried
Through length of years of life
beside,
I bid you thus a fond farewell,
Too deep for words or tears to tell.

But though I lose you, never more
To greet you at the open door.
To grasp your hand or see your
smile,
I shall be thankful all the while
Because your love and loyalty
Have made a happier world for me.

So rest you, playmate, in that land
Still hidden from us by His hand,
Where you may know again in
truth
All of the glad days of your youth—
As when in days of endless ease
We played beneath the apple trees.

INDIANAPOLIS, Ind., July 24.—The
body of James Whitcomb Riley, the In-
diana poet, who died unexpectedly Sat-
urday night at his home here, will lie
in state at the Indiana State Capitol
from 3 p. m. until 9 p. m. today. The
hours were fixed especially with the
view of providing a time when the
working people and children, accom-
panied by parents, might view the body.
The poet was particularly close to the
workers and children.
Gov. Samuel M. Ralston, in a letter to
Henry Ellet of this city, brother-in-law
of the poet, asked that the body lie in
state at the capitol. The letter, which
met with a favorable and ready re-
sponse from the poet's relatives, fol-
lows:

Dear Bitterly Mourner,
"James Whitcomb Riley was loved by
the people of Indiana as was no other
man. In an exceptionally tender sense
the people of his native State felt and
believed that he belonged to them and
they mourn—bitterly mourn—his pas-
sage."

"As Governor of Indiana, I am anxious
that the people be afforded an oppor-
tunity to show the high respect in which
they held 'this man who sang of com-
mon things' and I am moved, therefore,
to suggest that his remains be allowed
to lie in state in the rotunda of the
Capitol between the hours of 3 p. m. and
9 p. m. Monday, July 24, 1916."

As soon as it was agreed that the body
be placed in the Capitol, State officials
began placing the building in mourning
in memory of Riley. The body will be
placed under the dome of the Capitol,
where a few years ago Riley stood in
public reading his poem, "Old Glory."

Funeral Private.
Present arrangements are for the
funeral services to be held at the home
tomorrow morning. These will be pri-
vate and simple in accordance with
wishes of the poet. The minister and
pallbearers have not been selected.

It was tentatively agreed that the
burial be in Crown Hill Cemetery, near
here, relatives feeling that Mr. Riley
should be buried where the public might
easily visit his grave. First plans were
for burial near Greenfield, Ind., the
birthplace of the poet, but the feeling
that Riley belonged to the people led to
a reconsideration of this.

Thousands of persons yesterday passed
silently by the Riley home here, while
many close friends of the poet entered
the home to view the body.

WESTMORELAND GATES CLOSED
Usual Summer Customs Followed to
Remind Public to Stay Out
The Union boulevard gates to West-
moreland Place are closed to remind
the public that it is private property.
Until the trustees get ready to reopen
these gates, residents and visitors will
have to go around to the King's high-
way or the Lake avenue entrance.
The gates are closed for a time every
summer, when most of the residents
are away, and are therefore not incon-
venient. The public is prone to for-
get that Westmoreland Place belongs
to those who live there and close the
gates about a month each summer as a
reminder.

When they were escorting him to the

station Willers is said to have drawn
a revolver and covered Patrolman Shan-

his weapon from him.
Willers was charged with exceeding

NEW YORK, July 24.—The Evening Post in its copyrighted financial review today, says:

"During the early part of the day trading on the Stock Exchange was fairly active, and a higher range of prices was attained than in the quotations of last Saturday. Repurchases on professional account, as well as some of the speculative nature were responsible for the lively and cheerful character of the market."

Tommy Sullivan is authority for the statement that if Levisky "stalls" or "pulls" in his bout with Burke, and the fight is postponed for that reason, Levisky will not be paid the guarantee promised for an exhibition of the reigning champion. The New York boxer's reputation, however, makes such a contingency very unlikely.

Levisky Must Do His Best.

The year, will be announced after the close of the Stock Exchange tomorrow. At the same time the action of the directors in regard to dividends will be announced.

"A great deal of interest was directed toward these events today, though it could not be said that they had any great bearing on the course of prices."

Hanlon to Meet Russell.
If Jimmy Hanlon can do as well against Frankie Russell next Thursday night at the Motordrome as he did against Matty Smith at Federal Leisure Park on June 15, and if Russell can do better than he did against Joe Money on Feb. 1, the Future Fight Tour and its promoters will have their case for an extra payment ordered.

Kelly Trains With Burke.
 Kelly is doing some hard training with Tom Burke in preparation for his bout with Johnny Selmar of Pittsburgh, who is expected to meet him at the Lavinisky-Zuccato battle at the Coliseum tomorrow night.
 The Pittsburgh boxer has been keeping very quiet since he arrived in St. Louis. He is expected to make his debut in the ring at the Coliseum tomorrow night.

"If I didn't think I had a good chance with 'Battling' Lewinsky I wouldn't have made the match" is the way Tom Burke made his point in the 10-round bout between him and the former champion. Burke, a first-floor barber, says he never can tell you the names of the men who are in the boxing ring, but he knows the names of the men who are in the boxing ring.

"I don't think about that. Sitting on the bench looking at a spectator can save a lot from the trouble of being in the boxers' shoes. But if you're in the boxers' shoes, you're in the boxers' shoes."

SAZONOFF'S RETIREMENT CAUSE OF GENERAL REGRET IN RUSSIA
 During Seven Years in Foreign Of-
 fice He Completed Important
 Agreements With Other Nations.
PETROGRAD, July 3.—The resigna-
 tion of Sergius Sazonoff, after seven
 years' service as ambassador in
 London, has caused a great deal of
 regret in Russia. Sazonoff, who was
 born in 1856, was one of the most
 prominent statesmen of the Russian
 empire. He was ambassador in
 London from 1903 to 1910, and
 minister of foreign affairs from 1910
 to 1916. He was a member of the
 Duma, and was one of the most
 influential members of the liberal
 party. He was a close friend of
 the late emperor, and was one of
 the most trusted advisers of the
 government. His resignation was
 announced yesterday, and it was
 expected that he would be replaced
 by another member of the liberal
 party. Sazonoff's resignation was
 a great loss to the Russian govern-
 ment, and it was hoped that he
 would be recalled to office.

**COOLER WEATHER CAUSES
A SETBACK IN WHEAT**

CHICAGO, July 24.—Cooler weather than Sunday and Monday has helped to delay an advance today to the bear in wheat. The weather scarcity of offerings caused a rise in prices. On the bulls, however, selling increased heavily.

The market advanced from 41½ to 41½ and 42½, with Sept. at 41½ to 41½, and Dec. at 41½ to 41½. The market showed moderate capital upturn and then sagged all around to below Saturday's finish.

Wheat weather to the west helped to cause a rise in the price of corn. The market advanced from 37½ to 38½ and 39½ and back. After an opening which was 1½ to 1½, nearly all of the offerings were replaced in the market.

TWO AMERICANS SAY THEY WERE DEPORTED FROM ENGLAND

One Had Established Business in Ireland and Other Was on Way There for Wife

NEW YORK, July 4.—The New James J. Corcoran, a Roman Catholic priest of Chicago, and Richard B. Webb, the latter a native of Nebraska who moved to Ireland and established a business there four years ago, declared upon their arrival here aboard the steamship St. Paul from England that they had been ordered by the British authorities to leave that country.

Ebbett, a veterinarian and a veteran of the Spanish-American war, complained that the police visited his home

obtained from the Philippines. He wrote several notes to the British Government asking to have it returned to him, and as a result, he said, he was recently arrested and deported on the St. Paul.

The Rev. Father Markay, who had been in Rome, said he was on his way to County Mayo, Ireland, when he was held up by the British authorities. He protested against his detention on the ground that he was an American citizen, he said, and was told to return to America.

KANSAS CITY, Mo., July 24.—Poison which she took last Monday, may be a guest at a fashionable hotel here, caused the death in a hospital last night of a young woman believed to be Miss Helen Morrison, a nurse of St. Paul, Minn.

He was taken to the city hospital in a serious condition. He had been stopping at 1226 Olive street.
